MODOC COUNTY, CALIFORNIA · BOOK 09-04 · 2026-11-06

406 tax-defaulted parcels, the ones under $3,000 to redeem

The County of Modoc published its list of property tax defaults. 496 parcels are on it. 406 of them clear for under $3,000. That is the number, and the number is the whole opportunity: a parcel four years from a tax auction, redeemable for the price of a tyre, in a county where land is cheap enough that nobody else in the room bothered.

California does not assign certificates. The county waits and sells the parcel at a tax-defaulted land auction once the default is five years old, Revenue and Taxation Code 3691, and until then the owner or anyone with an interest can redeem. What you buy is not a lien. What you buy is the situation: a parcel with a known price, a known owner and a clock, and buyers who will pay for both.

PARCELS UNDER $3,000	TOTAL TO REDEEM THE LOT	ON THE COUNTY LIST	CHEAPEST

THREE WAYS TO MAKE MONEY ON THIS LIST

1. **Buy to own.** Redemption at the county is the cheapest way to acquire a parcel with no auction and no bidders. The cheapest row is $47.42.
2. **Sell the situation.** A parcel with a printed redeem figure and a five year clock is a product to a local handyman or a cabin buyer. You sell the APN and the steps, not a lien.
3. **Watch to the auction.** Every parcel here lives on a list that becomes a public auction. Modoc runs those on Bid4Assets. Mark the ones on a road and wait for the opening minimum, which on 5 year defaults is routinely below what the parcel is worth.

WHAT THE COUNTY PRINTS, AND WHAT IT DOES NOT

It prints the assessor parcel number, the assessee name and the total to redeem including penalties. It does not print acreage or a legal description. So this book does not invent either: pull the APN on the Modoc County assessor or the plat before you spend anything, and treat the redeem figure as the only number you can bank on. The assign column is simply 2x redeem, which is what a quick flip to a neighbour or a bordering owner clears at.
